

Silver Banksia of Central Victoria

These plants once occurred in large areas across central Victoria but are now limited to a few isolated locations. Are we at risk of losing these species from our landscape? Come along and find out.

Presentation by Adam Miller from Deakin University

ANA Hall Harcourt

7.30pm

Monday 19th of March

RSVP to Bonnie by Thursday 15th of March
Bonnie@Connectingcountry.org.au or 5472 1594

A light supper will be provided by the *Wettenhall Environment Trust*. Tea and coffee will also be provided.
