

**MALDON PRE-1852 EUCALYPTS****DATE:** Feb-April 2017; May, Oct 2018; May-June 2019; Jan 2021; Oct 2021; Jan-Aug 2022;  
Jan 2023**Recordings done by Maldon Urban Landcare Inc. (MULGA).**

Circumference measured at **1.3m** (breast height, BH) or as recorded in NOTES. **DBHOB** – diameter at BH over bark, calculated by circumference/3.14. **Multi-stem calculation for DBHOB** – <https://as4970calculator.web.app/> **AGE** – **at time of survey**, estimated by DBHOB/3.5 (average growth rate in trunk diameter/year, mm), **to nearest 5 years**. (Ref. 2001 *Box-Ironbark Forests & Woodlands Investigation Final Report*, Environment Conservation Council). **MASC:** Mt. Alexander Shire Council.

\* Tree numbers asterisked indicate trees with a DBHOB less than the minimum diameter threshold (70cm) for large trees for EVC 61 Box Ironbark Forest and EVC 70 Hillcrest Herb-rich Woodland.
